Health supplements is rated at one of the top sellers in the United States alone. Weight Loss Supplements, Vitamins and Herbs, Joint Health, and Antioxidants. In 2004, 18.9 percent of Americans reported that they had taken one or more dietary supplements in the past year. Retail and non-retail sales of dietary supplement products across all distribution channels in the U.S. were \$17 billion in 2000. Retail sales of dietary supplement products were approximately \$11.3 billion in 2000.

The problem with MLM junkies, network marketers, along with ground floor opportunities. Is that they usually get involved with business plans that never last. They prey on the ignorant, uneducated, and the fearful individuals. However, Greed takes the form of stupidity as they attempt to convince people with a mass delusion of quick riches. The bottom eventually falls out in a few years. There is nothing really bullet proof and there are not many garrantees with business opportunities.
